RUL-KON

## ABOUT US

Our company has been serving industry sector for producing conveyor equipment and spare parts since 1985.

#### Our Products:

- Roller's bearing housings (tube ends)
- Idler supports and connection elements
- Belt conveyor roller stations
- Conveyor rollers
- Belt drums

Our company is a sensible choise of contractors, because of quality, experience

### OUR MISSION

In the sector we serve, to adapt to the developing technology, to understand the needs of our customers in the best way, to provide the best solution and to meet their expectations. and large production range. Our main products are bearing housings and roller stands and connection elements. You can always find bearing housings for various dimension in our warehouse. We can also manufacture your special housings.

Conveyors are systems that save time and energy in the transfer of part or bulk material. There are belt, roller, chain, bucket, spiral and pneumatic conveyors.

## **OUR VISION**

In the sector we serve, to present our products to our customers in the best quality and price and in the best time.

## **BELT PULLEY**

Carrier, impact and return rollers, roller stations and belt drums are manufactured in the dimensions you want.

These are the elements that give the necessary tension to the belt in the belt conveyor system and transfer the movement from the motor-reducer to the belt.

## **BELT ROLLER STATION**

Carrier, impact and return rollers, roller stations and belt drums are manufactured in the dimensions you want.

Roller stations are stands that hold the rollers that carry the belt on belt conveyors. Generally, 3 or 2 roller stations are used. Roller travers are conveyor elements on which conveyor rollers are mounted..

In our company, many kind of bearing housings are manufactured.

We are manufacturing bearing housings with our experience of being in the sector for many years and our knowledge of steel sheet deep drowning. Bearing housings are produced by metal sheets and they are also suitable for bearing bore. Labyrinthed housings protect bearing from moisture, dust and other hard conditions. It causes long life service. We have also polyamide tight fitted bearing housings. You can find our housing table below..
